About Informa Economics

Informa Economics, Inc., (Informa) a division of Informa plc, is the world leader in comprehensive agricultural, commodity and transportation market research, analysis and consulting. Founded in 1977, the company now serves more than 750 firms and institutions worldwide. From our headquarters in Memphis, Tennessee, Informa now spans the globe with a far-reaching network of services and clientele.

The company's professional depth and experience allow us to provide a wide range of services related to the economic, strategy and management concerns of clients. Underpinning these services, our principal strengths lie in an expansive information base and a professional and experienced staff. Sister divisions of Informa plc that contribute to our transportation information base and network include Lloyds List and IIR Transport.

Representing Informa's primary asset, our employees are well-trained and seasoned researchers and consultants with extensive backgrounds in business and government; most hold advanced degrees in agriculture, business, economics or related fields. The Informa team has extensive experience in transportation, energy, agribusiness and similar areas as well as in agricultural policy decision-making. Many Informa employees have gained insights from past government service in senior policy, analysis and advisory positions; from major trade associations; from land grant universities; and as senior officials of leading agribusiness companies.

The world's agricultural and food industry is expanding and remains in a constant state of change. Successful businesses and institutions must deal with rapidly shifting market conditions that are driven by international influences, technological innovations, policy shifts, weather conditions, emerging consumers and fluctuating consumer preferences. To continue succeeding in this environment, businesses must have access to reliable industry and market information and authoritative economic consulting services. It is Informa's economic expertise and diverse client base that combine to provide unique insights, risk management and strategic planning for agribusinesses around the world.

In its role as a world leader in comprehensive commodity, food industry and agribusiness research and consulting, Informa offers several broad categories of services:

- **Research/Analysis**
- **Business Consulting**
- **Education/Training**
- **News/Communication**
- **Energy**
