Transportation and Logistics Roundtable Series

informa economics

Informa Economics' *Transportation and Logistics Roundtable Series* is the venue to gain exclusive access to those experts in-the-know and those that move business, not only in the US, but throughout North America and around the globe. Issues important to you will be addressed in this exciting program. The Roundtable agenda will include all aspects of transportation and logistics.

The Roundtable series is the forum to engage all logistical functions of your business, from shipping product in, to shipping product out. Whether you use truck or have a fleet of trucks, barges, rail-hopper cars, tank cars or intermodal, air transport, or ocean-bulk and container, or you are a policy maker or industry observer, this will be a place to address and strategically assess the environment. The *Transportation and Logistics Roundtable Series* will draw upon Informa Economics' resource of seasoned researchers, analysts and consultants, while at the same time, engage the knowledge base of Informa and outside experts from the industry and the government.

The Informa Economics *Transportation and Logistics Roundtable* brings together a cross-section of transportation and logistical information in areas of production, consumption, supply and demand issues; policy; modal developments for barge, rail, intermodal, dry bulk and container ocean movements; and infrastructural issues.

As a participant, you receive exclusive access to...

- Three consecutive Roundtable meetings (3 attendees per meeting): every roundtable meeting covers a well-planned agenda of presentations, reviews, discussions of a current topic critical to the transportation and logistics environment, and operational tours
- Personal access to policy makers, industry leaders
- Network with leaders in every segment of the transportation and logistics sectors
- Strategic advice for planning and risk management
- Access to Informa Economics' knowledge base, personnel, and information
- Opportunities for bonus day of site visits and tours (usually a second day for a nominal cost to cover transportation and fees)
- Client rates to Informa Economics' conferences, seminars, and events
- Up to three attendees from your organization with each additional attendee requiring a nominal fee
- Prorated meeting opportunities available - inquire to learn more

About Informa

Informa Economics, Inc. is a world leader in broad-based agricultural and commodity market research, analysis and consulting. Founded in 1977 and acquired in 2003 by Informa plc, the company serves hundreds of firms and institutions worldwide. From our headquarters in Memphis, Tennessee, Informa Economics spans the globe with a far-reaching network of services and clientele.

The company's professional depth and experience allow us to provide a wide range of services related to the economic and management concerns of clients. Underpinning these services, Informa Economics' principal strengths lie in an expansive information base and a professional and experienced staff. Our employees, Informa Economics' primary asset, are well-trained and seasoned researchers and consultants with extensive backgrounds in business and government; most hold advanced degrees in agriculture or related fields. The Informa Economics team has extensive experience in agribusiness and similar areas as well as in agricultural policy decision-making. Many Informa Economics employees have gained insights from past government service in senior policy, analysis and advisory positions; from major trade associations; from land grant universities; and as senior managers of leading agribusiness companies.

The world's agricultural and food industry is expanding and remains in a constant state of change. Successful businesses and institutions must deal with rapidly shifting market conditions that are driven by international influences, technological innovations, policy shifts, weather conditions, emerging consumers and fluctuating consumer preferences. To continue succeeding in this environment, businesses must have access to reliable market information and authoritative economic consulting services. It is Informa Economics' economic expertise and diverse client base that combine to provide unique insights, risk management and strategic planning for agribusinesses around the world.

In its role as a world leader in comprehensive commodity, food industry and agribusiness research and consulting, **Informa Economics offers several broad categories of services:**
