# A Multi Client Analysis and Outlook

## Global Vegetable Oil & Biodiesel Feedstocks: New Challenges Ahead

**September 2009**

---

## Table of Contents

<b>1. EXECUTIVE SUMMARY .....</b>	<b>1</b>
1.1 Potential for Palm Oil Production Growth.....	1
1.2 Transition from Trans Fat Oils in Food.....	3
1.3 Corn Oil Recovery in Dry Mill Ethanol Facilities .....	3
1.4 Growing Use of Animal Fats for Biodiesel.....	4
1.5 Alternative Feedstocks and Technologies for Biodiesel .....	6
1.6 Vegetable Oil and Animal Fat Price Situation and Outlook .....	8
1. 6.1. Price Forecasts for Vegetable Oils .....	9
1. 6.2. Price Forecasts for Animal Fats.....	12
1.7 Challenges Ahead for the US Biodiesel Industry .....	13
1.8 Global Biodiesel Vegetable Oil Demand Outlook.....	17
1.9 Ten-Year Global Supply and Demand Outlook for Vegetable Protein and Oils .....	19
<b>2. INTRODUCTION.....</b>	<b>22</b>
<b>3. IMPACT OF GLOBAL RECESSION AND THE OBAMA ADMINISTRATION .....</b>	<b>23</b>
3.1 Economic Outlook.....	23
3.2 Implications of the Economic Outlook on Vegetable Oil Consumption.....	27
3.3 The Obama Administration and Its Impact on Biofuels and Investment .....	29
<b>4. POTENTIAL FOR PALM OIL PRODUCTION EXPANSION .....</b>	<b>32</b>
4.1 Global Palm Oil Production and Trade.....	32
4.2 Potential for Palm Oil Production Growth in Malaysia and Indonesia .....	35
4. 2.1. Production Overview.....	35
4. 2.2. Potential for Area Expansion .....	38
4. 2.3. Potential for Yield Improvement.....	40
4. 2.4. Potential for Palm Oil Production Growth.....	42
4.3 Potential to Expand Palm Oil Production in Other Parts of the World .....	43
4.4 Impact of Environmental Standards .....	45
4. 4.1. Palm oil for Biodiesel .....	45
4. 4.2. Roundtable on Sustainable Palm Oil .....	46

<b>5. ALTERNATIVE FEEDSTOCKS AND TECHNOLOGIES FOR BIODIESEL .....</b>	<b>47</b>
5.1 Camelina.....	47
5. 1.1. <i>Product Lifecycle</i> .....	47
5. 1.2. <i>Case Studies: Profiles of Companies Developing Camelina</i> .....	48
5. 1.3. <i>Strengths and Limitations of Camelina</i> .....	49
5. 1.4. <i>Potential Impact on Conventional Vegetable Oils and Regional Perspectives</i> .....	50
5.2 Jatropha.....	50
5. 2.1. <i>Product Lifecycle</i> .....	51
5. 2.2. <i>Case Studies: Profiles of Companies Developing Jatropha</i> .....	52
5. 2.3. <i>Strengths and Limitations of Jatropha</i> .....	53
5. 2.4. <i>Potential Impact on Conventional Vegetable Oils and Regional Perspectives</i> .....	55
5.3 Algae.....	55
5. 3.1. <i>Product Lifecycle</i> .....	56
5. 3.2. <i>Case Studies: Profiles of Companies Developing Algae</i> .....	56
5. 3.3. <i>Strengths and Limitations of Algae</i> .....	61
5. 3.4. <i>Potential Impact on Conventional Vegetable Oils and Regional Perspectives</i> .....	62
5.4 Implications and Conclusions.....	62
<b>6. GROWING USE OF ANIMAL FATS FOR BIODIESEL: MARKET PERSPECTIVE .....</b>	<b>65</b>
6.1 Animal Fats Production Outlook.....	65
6.2 Future Use of Animal Fats for Biodiesel.....	67
6.3 Animal Fat Availability for Biodiesel Production .....	71
6.4 Implications.....	72
<b>7. TRANS FAT IN FOOD AND CORN OIL RECOVERY IN DRY MILL ETHANOL FACILITIES.....</b>	<b>73</b>
7.1 Trans Fat in Food.....	73
7.2 Corn Oil Recovery.....	77
7. 2.1. <i>Corn Fractionation</i> .....	78
7. 2.2. <i>Corn Oil Extraction</i> .....	79
7.3 Corn Oil Recovery Outlook .....	81
<b>8. CHALLENGES AHEAD FOR THE US BIODIESEL INDUSTRY.....</b>	<b>83</b>
8.1 US Biodiesel Industry Trends.....	84

## Global Vegetable Oil & Biodiesel Feedstocks: New Challenges Ahead

---

8.1.1.	<i>Supply and Demand</i> .....	84
8.2	Feedstock Trends: More Use of Animal Fats and Other Oils .....	88
8.3	New Challenges and Opportunities .....	90
8.3.1.	<i>New Policy Changes</i> .....	90
8.4	Meeting the One-Billion-Gallon Mandate .....	99
8.4.1.	<i>Feedstock Availability</i> .....	99
8.4.2.	<i>Biodiesel Distribution</i> .....	99
8.5	Industry Overcapacity and the Case for Industry Consolidation and Restructuring .....	101
8.6	Long Term Forecast .....	108
<b>9.</b>	<b>VEGETABLE OIL AND ANIMAL FAT PRICES AND RISK MANAGEMENT</b> .....	<b>109</b>
9.1	Price Forecast for Biodiesel Feedstocks .....	109
9.1.1.	<i>Price Forecasts for Vegetable Oils</i> .....	109
9.1.2.	<i>Price Forecasts for Animal Fats and Yellow Grease</i> .....	112
9.2	Managing Risk .....	114
9.2.1.	<i>Managing Inputs</i> .....	115
9.2.2.	<i>Managing Outputs</i> .....	117
<b>10.</b>	<b>GLOBAL BIODIESEL OUTLOOK</b> .....	<b>119</b>
10.1	Ten Year Global Biodiesel Vegetable Oil Demand Outlook .....	123
10.2	EU Biodiesel Sector .....	127
10.2.1.	<i>Biofuel Renewable Policy Environment</i> .....	128
10.2.2.	<i>Structure and Trends</i> .....	131
10.2.3.	<i>Biodiesel Demand Outlook</i> .....	133
10.3	Brazilian Biodiesel Market .....	135
10.3.1.	<i>Policy</i> .....	136
10.3.2.	<i>Biodiesel and Vegetable Oil Demand</i> .....	137
10.4	Argentina Biodiesel Market .....	139
10.4.1.	<i>Policy</i> .....	140
10.4.2.	<i>Biodiesel and Vegetable Oil Demand</i> .....	141
10.5	Indonesia Biodiesel Market .....	142
10.5.1.	<i>Policy</i> .....	142
10.6	Malaysia Biodiesel Market .....	144
10.6.1.	<i>Policy</i> .....	144

## Global Vegetable Oil & Biodiesel Feedstocks: New Challenges Ahead

---

10.7	Other Countries with Biofuels Mandates .....	145
10.7.1.	Canada.....	148
10.7.2.	China.....	149
10.7.3.	Colombia .....	150
10.7.4.	India .....	150
10.7.5.	New Zealand.....	151
10.7.6.	Paraguay.....	152
10.7.7.	Philippine.....	153
10.7.8.	Taiwan.....	154
10.7.9.	Thailand .....	155
10.7.10.	Uruguay.....	156
10.7.11.	South Korea .....	157
<b>11.</b>	<b>TEN-YEAR GLOBAL SUPPLY AND DEMAND OUTLOOK FOR VEGETABLE PROTEIN AND OILS .....</b>	<b>158</b>
11.1	World Vegetable Oil Fundamentals .....	159
11.2	World Meal Use and Trade .....	160
11.3	World Oilseed Production .....	164
11.4	World Vegetable Oil Production and Use.....	167
11.5	Outlook Findings .....	171
<b>12.</b>	<b>APPENDIX .....</b>	<b>172</b>
12.1	The 2007 Renewable Fuel Standard: Implications for Biodiesel .....	172

### List of Exhibits

Exhibit 1: Potential for Palm Oil Production Growth in Malaysia and Indonesia .....	2
Exhibit 2: US Demand of Animal Fats and Grease (2008) .....	5
Exhibit 3: Average Oil Yields under Normal Conditions.....	6
Exhibit 4: Petroleum and Soybean Oil Price Outlook .....	9
Exhibit 5: Outlook for US Vegetable Oil Premiums to Soybean Oil .....	10
Exhibit 5:: US Vegetable Oil Price Outlook.....	11
Exhibit 5: US Soybean Oil and Animal Fat Price Outlook.....	12
Exhibit 7: Biodiesel Capacity and Utilization.....	13
Exhibit 8: Biodiesel Margin Index vs. Industry Capacity (2009) * .....	16
Exhibit 9: Baseline 10-Year Biodiesel Production Outlook by Feedstock.....	17
Exhibit 10: Biodiesel Demand Outlook – All Feedstocks; tmt, calendar year .....	19
Exhibit 11: Ten-Year World Vegetable Oil and Biofuel Use.....	21
Exhibit 12: Overview of US Post World War II Recessions .....	24
Exhibit 13: USDA, World Agricultural Outlook Board, Global Real GDP Growth Assumptions by Region .....	26
Exhibit 14: US Per Capita Edible Oil Usage (Excluding biodiesel usage) .....	27
Exhibit 15: Per Capita Edible Oil Consumption in Select Countries (Excluding biodiesel usage).....	28
Exhibit 16: Sources of Dietary Food Consumption .....	28
Exhibit 17: GHG Emissions Reduction .....	30
Exhibit 18: Global Palm Oil Production and Net Trade.....	32
Exhibit 19: Historical Palm Oil Expansion.....	33
Exhibit 20: Contribution to Oil Palm Area Expansion.....	34
Exhibit 21: Malaysian Palm Oil Supply and Demand.....	35
Exhibit 22: Malaysian Palm Oil Supply and Demand.....	35
Exhibit 23: Oil Palm Production in Malaysia and Indonesia.....	36
Exhibit 24: Oil Palm Plantation Ownership .....	37
Exhibit 25: Top 10 Listed Palm Oil Plantations.....	37
Exhibit 26: Areas Under Industrial Crops .....	39
Exhibit 27: Palm Oil Yields in Indonesia and Malaysia.....	40
Exhibit 28: 2008 Palm Oil Yields and Potential for Improvement .....	41
Exhibit 29: Potential for Palm Oil Production Growth in Malaysia and Indonesia .....	43
Exhibit 30: Palm Oil Production Outside Malaysia and Indonesia .....	44
Exhibit 31: Palm Oil Yields Outside Malaysia and Indonesia .....	44

## Global Vegetable Oil & Biodiesel Feedstocks: New Challenges Ahead

---

Exhibit 32: Scale of Jatropha Projects .....	51
Exhibit 33: Average Oil Yields under Normal Conditions.....	63
Exhibit 34: US Production of Fats and Oils (2008/09) .....	65
Exhibit 35: Production Outlook of Animal Fats and Grease.....	66
Exhibit 36: Fats and Oils Usage for Biodiesel Production .....	67
Exhibit 37: Feedstock Used for Biodiesel Production (2008).....	68
Exhibit 38: US Demand of Animal Fats and Grease (2008) .....	71
Exhibit 39: US Canola & Palm Oil Non-biodiesel Domestic Use .....	75
Exhibit 40: US Vegetable Oil Consumption by Hydrogenation .....	76
Exhibit 41: US Soybean Oil Consumption .....	76
Exhibit 42: Crude Corn Oil Production (Jan-Dec 2008) .....	78
Exhibit 43: Crude Corn Oil Recovery Assuming Fractionation Processes Become an Industry Standard .....	81
Exhibit 44: Corn Oil Recovery Outlook Potential .....	82
Exhibit 45: US Biodiesel Industry Structure .....	83
Exhibit 46: US Biodiesel Production and Margins .....	84
Exhibit 47: Biodiesel Capacity and Utilization.....	85
Exhibit 48: US Biodiesel Net Exports .....	86
Exhibit 49: US Biodiesel Exports by Country.....	86
Exhibit 50: Fats & Oils Used in Methyl Ester (Biodiesel) Production .....	88
Exhibit 51: Animal Fats Used in Methyl Ester (Biodiesel).....	89
Exhibit 52: Animal Fats Price Discount Relative to Soy Oil .....	89
Exhibit 53: GHG and Volume Equivalent under RFS2 .....	92
Exhibit 54: GHG Emissions Displacements.....	92
Exhibit 55: California LCFS Schedule .....	96
Exhibit 56: State Driven Biodiesel Demand .....	100
Exhibit 57: Distribution of Biodiesel Stations and Diesel Demand .....	101
Exhibit 58: Biodiesel Margin Index vs. Industry Capacity (2009) .....	104
Exhibit 59: Biodiesel Margin Index vs. Facility Capacity (2009) .....	105
Exhibit 60: Distribution of Biodiesel Plants by Margin Index Rank (2009) .....	106
Exhibit 61: Biodiesel Plants Margin Index by State (2009) .....	107
Exhibit 62: Baseline 10-Year Biodiesel Production Outlook by Feedstock.....	108
Exhibit 63: Petroleum and Soybean Oil Price Outlook .....	109
Exhibit 64: Outlook for US Vegetable Oil Premiums to Soybean Oil .....	110

## Global Vegetable Oil & Biodiesel Feedstocks: New Challenges Ahead

---

Exhibit 65: US Vegetable Oil Price Outlook.....	111
Exhibit 66: Animal Fats Used in Biodiesel Production .....	112
Exhibit 67: US Soybean Oil and Animal Fat Price Outlook.....	113
Exhibit 68: Regression of Biodiesel on Soybean Oil Futures .....	114
Exhibit 69: Correlation Matrix between Fat, Oil and Energy Prices .....	115
Exhibit 70: Correlation between Soybean Oil and Crude Petroleum Oil.....	116
Exhibit 71: Correlation Matrix between Energy Prices (May 2007 – July 2009) .....	118
Exhibit 72: Biofuel Drivers and Motives .....	119
Exhibit 73: World Biodiesel Production Trend .....	120
Exhibit 74: World Vegetable Oil Use for Biodiesel vs. Food .....	121
Exhibit 75: US and EU-27 Biodiesel Capacity Utilization.....	121
Exhibit 76: World Vegetable Oil Use Biodiesel Margins .....	122
Exhibit 77: Biodiesel Mandate Schedule .....	123
Exhibit 78: Biodiesel Demand Outlook – All Feedstocks; tmt, calendar year .....	124
Exhibit 79: Biodiesel Demand Outlook – Vegetable Oil Only Demand; tmt, calendar year (crude oil basis) .....	126
Exhibit 80: World Vegetable Oil Use for Biodiesel vs. Food (2009 – 2018).....	126
Exhibit 81: EU Biodiesel Capacity Distribution .....	127
Exhibit 82: Typical and Default GHG Savings Biodiesel w/o Land Use Change .....	130
Exhibit 83: EU Biodiesel Supply and Demand.....	131
Exhibit 84: EU Consumption and Imports.....	131
Exhibit 85: 2009 Estimated Production and Capacity by Country .....	132
Exhibit 86: German Biodiesel Margins .....	132
Exhibit 87: Feedstocks Used for Biodiesel .....	133
Exhibit 88: EU-27 10-Year Biodiesel Demand Outlook .....	134
Exhibit 89: Brazilian Biodiesel Supply Demand Balance .....	135
Exhibit 90: Federal and State Tax Incentives for Biodiesel (Real/Liter).....	137
Exhibit 91: Brazil Biodiesel Demand Outlook .....	138
Exhibit 92: Biodiesel Supply Demand Balance.....	139
Exhibit 93: Argentina Biodiesel Demand Outlook.....	141
Exhibit 94: Biodiesel Supply Demand Balance.....	142
Exhibit 95: Biodiesel Demand Outlook .....	144
Exhibit 96: Biodiesel Demand Outlook – Other Countries .....	145
Exhibit 97: Biodiesel Supply and Demand Balance – Other Countries.....	146

## Global Vegetable Oil & Biodiesel Feedstocks: New Challenges Ahead

---

Exhibit 98: World Vegetable oil production .....	159
Exhibit 99: World Protein Meal Use .....	160
Exhibit 100: Growth of World Protein Meal Use .....	160
Exhibit 101: World Protein Meal Use by Type .....	161
Exhibit 102: World Protein Trade, Net Exports .....	161
Exhibit 103: World Protein Meal Production .....	162
Exhibit 104: World Meal Domestic Use by Region .....	163
Exhibit 105: World Oilseed Production by Type .....	164
Exhibit 106: Soybean Area Growth .....	164
Exhibit 107: Major Producer Soybean Yields .....	165
Exhibit 108: Oilseed Production .....	166
Exhibit 109: World Vegetable Oil Use .....	167
Exhibit 110: Per Capita Vegetable Oil Consumption in Traditional Uses.....	168
Exhibit 111: Major Oils Trade, Net Exports .....	169
Exhibit 112: World Vegetable Oil Production.....	169
Exhibit 113: Major Oil Domestic Use .....	170
Exhibit 114: 2007 RFS Under the 2007 Energy Bill.....	172
